TWO GREAT NEW BOOKS FROM ALMANZAR'S

THE COINAGE OF COLOMBIA, by Al Almanzar and Dale Seppa. This is the only book on Colombia ever published which includes all of the coinage used since the original declaration of independence. All base metal, silver, and gold coinage including the royalist issues which were sometimes used by Republican forces as emergency coinage. Well over 1000 different coins are listed by dates, varieties and assayer with prices in 5 grades of conservation. The historical introduction to the book carries full information on the varied governments under which coinage was issued. Almost 100 pages chock full of information and indeed necessary for any numismatist with any degree of interest in Latin American coinage. Well worth the postpaid price of only **\$3.00.**

THE COINS AND PAPER MONEY OF EL SALVADOR, by Al Almanzar and Brian Stickney. Although the coinage of this tiny Central American nation is presumed to be rather limited, the abundance of research undertaken by the authors guarantees to popularize the interest in this field. Thirty-two pages are devoted to paper money and 44 additional pages are devoted to include all of the coinage from the beginning as a nation. The provisional issues, the emergency counterstamp issues, and the patterns and modern coinage are listed and evaluated in five grades. In addition, the proclamation of the Viceregal under the Viceroy of Mexico has been included. The paper money as well as the coinage section is illustrated throughout. And, for the first time, an enormous amount of information concerning the numismatic history of this nation, which has previously never been made available, has been included. Well worth the postpaid price of only **\$3.00**

Proof copies of both of these books have been submitted to leading numismatists with experience in these fields and they loudly acclaim these to be our "best yet". To anyone familiar with our series of books we feel that in itself will make them of great interest.

**DEALERS MAY INQUIRE
FOR WHOLESALE PRICES.**

COB — EIGHT REALES
LUIS I, 1725 (1724)

This heart-shaped 8 Reales coin, dated 1726, is from the short-lived reign of Luis I. Luis I was sworn to the throne on February 9, 1724 and died without a successor in August of that year. He reigned for one year, but coins were struck bearing his name from 1725 to 1727 at the Potosi Mint. No heart-shaped 8 Reales of this period is illustrated in Calbeto, nor is any other reference known to us. It measures an unbelievable 44 mm. (at widest point). This coin is excessively rare, if not unique. Worthwhile acquisition for even the most advanced collector.

ANNUAL SUBSCRIPTIONS TO AUCTIONS, COIN AND PAPER MONEY CATALOGS

Auctions in the year ahead:

We are pleased to announce that we will be conducting a minimum of three (3) auction sales during 1973, the first auction to be scheduled for April and we have already secured the following items of great numismatic interest.

- An extensive collection of Mexican medals — hundreds of them including 36 in gold.
- Along with this collection we have obtained an interesting selection of Mexican coinage.
- A collection of Latin American coins with emphasis on Colombian coinage.
- A selection of European medals related to the history of the Americas; these are actual pedigree pieces from the Medina Collection used to illustrate his book "Medallas Europeas Relativas A America".
- A collection of European coinage with many German coins included.
- A collection of 81 Napoleonic medals in bronze and silver including several books on the subject.
- A selection of rare numismatic literature.
- Hopefully we will also be able to offer a collection of Swiss shooting medals.
- Extensive collection of world paper money with emphasis on Latin America.

All in all there will be something for everyone: some rare gold coins, British World coinage and selections of oriental pieces, tokens of the world and even a selection of Indian States coinage.

We are hopeful of continuing to be the most diversified coin firm in the United States and our auctions will prove it. We will also continue to offer items through our catalogs and auctions for the collectors of moderate means as we feel that numismatics is a hobby to be enjoyed by all. In order to obtain a minimum of three (3) auction catalogs and additional publications, we urge you to subscribe now.

The background of the entire page is a dense, overlapping collage of various United States coins. Visible coins include the obverse of a Lincoln cent, the reverse of a Kennedy half-dollar, the reverse of a Roosevelt dime, the obverse of a Washington quarter, and the reverse of a Eisenhower dollar. The coins are arranged in a way that they appear to be scattered across the page, with some overlapping others.

— ATTENTION —

We will guarantee a minimum allowance of 50% above face value for Silver U. S. coins (pre-1964) against purchases from this catalog. In addition, we will be interested in purchasing or making trades for accumulations or groups of U. S. coins, silver, copper, and gold with numismatic premiums of \$5.00 and above per item. We are in need of these items for our local collectors and over-the-counter sales.

ANNOUNCING THE PAPER MONEY AUCTION

Nothing wrong with our grammar. This will be THE foreign paper money auction of the year. No big name like our KING FAROUK COLLECTION OF LATIN AMERICAN BANKNOTES last August. Just 700 lots of choice, rare, and scarce banknotes of the world consigned to us by a number of advanced collectors on our mailing list. Also included will be dozens of lots of more common items so that everybody will have a chance to acquire something worthwhile within his price range. This auction will be by mail bid only, and the catalogs will be sent only to subscribers. In addition to the bank notes, there will be over 500 lots of Mexican, French, and world medals with an additional 2000 lots or so of rare, scarce, and common world coins. The catalog, which will consist of 150 pages, will be sent only to subscribers, and the price of only \$2 is quite reasonable, considering the size of the catalog and today's high postage rates. Prices realized will cost an additional dollar. As of this moment, we project a date of April 30th for the auction, and the catalogs should be in the mail on or before the first of April so that all subscribers will have ample time to research and place their bids.

We Are Exclusive Distributors Of This Great Book MEDALS OF MEXICO

Volume II (1821-1971) by F. W. Grove

A monumental work, the best book ever on Mexican numismatics, featuring medals for a period of 150 years. This work which took 5 years of research, covers medals of Mexico from its early independence in 1821 to the present. It covers medals issued under the Emperor Iturbide. After his short reign, medals were issued during the 40-year Republican Period. During the French Intervention, lasting four years (1863-1867) and upon the reestablishment of the Republic by Benito Juarez in 1867 to the present, hundreds of private, provincial, revolutionary, and federal medals were struck to commemorate both world-shaking and minor events. The author has additionally included a special section on medals issued for advertising by corporations and the like. The book throughout is laced with many interesting comments on many of the historical events which contribute to the rich, historic, and cultural background of Mexico.

This book contains a total of 480 pages (2½ times the size of Volume 1, covering the Colonial Period). About 1,500 illustrations on glossy paper, evaluations included on each medal, hard bound with golden eagle embossed. This is truly the most well-researched work on Mexican numismatology, possible only after five years of painstaking research. You may order directly from us at
